| Context and Considerations

Project Summary:

We are fast-tracking the addition of chapters to Netflix content, following content leadership feedback, starting with Video Podcasts. While our MVP will enable chapters for podcasts specifically, we anticipate adding chapters to additional content types in the future, though portions of this work may need to be revisited to account for future iterations of the player experience.

Nomenclature:

- We'll utilize basic metadata, including chapter titles and timestamps, as the primary information communicated throughout the member experience.
 - This means that, outside the header in our chapter side panel, there are no new strings or labels for this project.
- “Chapter” or “Chapters” is the preferred nomenclature when referring to chapters in the UI, which meets industry standard, is easily understood by members, and differentiates from existing content segments (clips, moments, etc.).
 - Ex: see side panel header in CD Spec below.

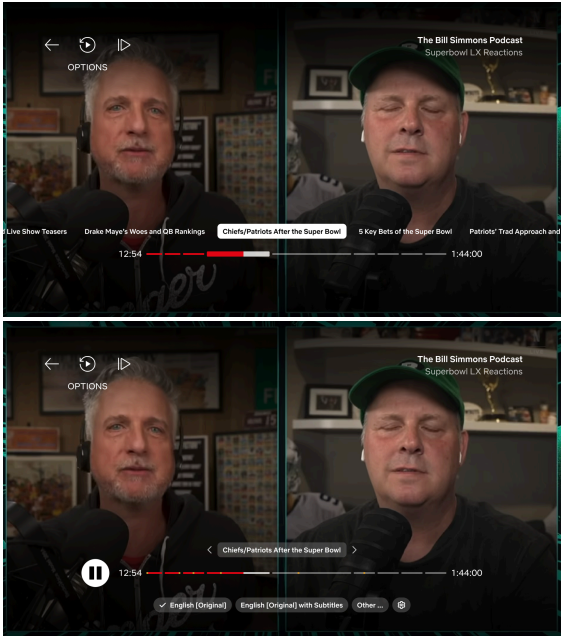

Chapter Title Styling:

We're providing content partners with basic guidelines for creating and submitting podcast chapter titles to ensure consistency and usability across our UI. TLDR is below, but for the full style guide, see [Netflix Content Style Guide: Podcast Chapter Titles](#)

Content	Do	Don't
Length	Aim for 30-40 characters	Go beyond 45 characters
Capitalization	Title case	Sentence Case or ALL CAPS
Content focus	Describe what happens in the chapter	Use vague or flowery phrasing
Repetition	Keep each chapter title unique	Repeat host/series names or the same phrase every time
Wording	Use short, clear, common words	Use unnecessary long, technical, or filler phrases

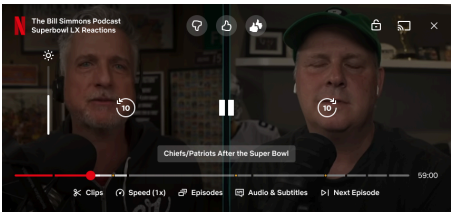

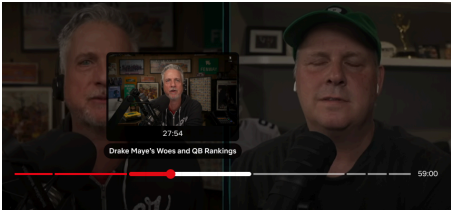

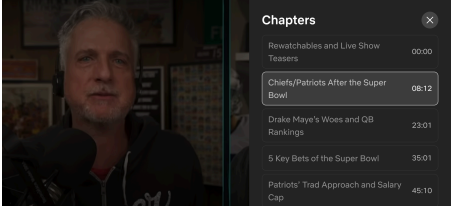

|Content Specs

TV UI				
Context	Design	Content	CD Notes	G11n Notes

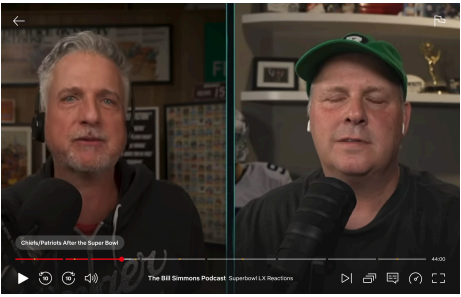

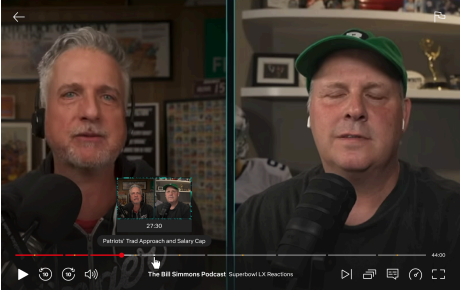

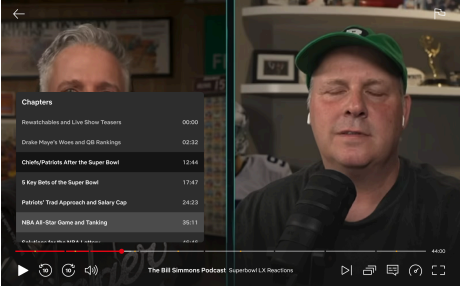

P l a y e r c o n t r o l s		<chapter title>	See Podcast Chapter Title style guide for max-length and formatting. There are no new strings being introduced here outside of the chapter titles themselves and TTS.	Not localized

Mobile UI

Context	Design	Content	CD Notes	G11n Notes
---------	--------	---------	----------	------------

Player controls		[cta] <chapter title>	Current chapter title/CTA	Not localized
Manual scrubbing		<chapter title>	Chapter title appears below trickplay frame	Not localized
List view		[header] Chapters [list item] <chapter title> <timestamp> [list item] <chapter title> <timestamp> [list item] <chapter title> <timestamp>		"Chapters" header should be localized, list item chapter titles should not.

	Web UI			
Context	Design	Content	CD Notes	G11n Notes

Player controls		<chapter title>		Not localized
Manual scrubbing		<chapter title>	Chapter title appears below trickplay frame	Not localized
List view		[header] Chapters [list item] <chapter title> <timestamp> [list item] <chapter title> <timestamp> [list item] <chapter title> <timestamp>	Panel opened by selecting chapter title/cta	"Chapters" header should be localized, list item chapter titles should not. Timestamp should follow same format we use for timestamps across markets
